## A BOAT TURNS TURTLE

BRITISH SHIP NELSON CAPSIZES  
OFF ASTORIA, OR., IN  
A GALE.

ALL WENT TO THE BOTTOM

Entire Crew of Twenty-eight Drown.  
Her Cargo of Lumber Had Listed  
and She Became Unmanageable.  
Tug Had Taken Her in Tow, but the  
Line Parted During a Storm and the  
Vessel Disappeared.

Astoria, Or., Dec. 5.—The bar tug  
Tatoosh, which has just returned to  
port, reports that the British ship Nel-  
son, Captain Perriam, turned turtle dur-  
ing the night and went to the bottom  
with her entire crew, numbering 28  
men.

The Nelson left Astoria Nov. 25.  
She came back at the river's mouth  
and reported to have shifted her car-  
go. She had a bad list to starboard  
and could go only on one tack. The  
tug Tatoosh went out and picked up  
the Nelson, passing a hawser. The  
tug started off shore with the ship  
owing to the gale. It was the inten-  
tion of Captain Bailey of the Tatoosh  
to remain with the ship during the  
night. The gale was too severe for  
the vessel to withstand and she broke  
from the tug and then turned turtle,  
sinking at once. In the darkness it  
was impossible for the tug to render  
assistance to the members of the crew  
and all perished.

The Nelson carried a crew of 28  
men all told. She was an old wooden  
vessel. Captain George Woods, the  
bar pilot, was to have been placed  
aboard the ship, but the weather was  
too rough to permit it. Captain Woods  
states that the Nelson went over be-  
tween 10 and 11 p. m. during the  
height of the gale.

The Nelson carried a cargo of lum-  
ber and was consigned to Cape Town,  
South Africa, by Taylor, Young & Co.  
of this city.

## FOUGHT WITH KNIVES.

Sanguinary Duel of Two Negroes in a  
New York Tenement.

New York, Dec. 5.—George Harris  
and Richard Anthony, negroes, who  
for some time have borne a grudge  
against each other, met during the  
evening in Harris' room and fought it  
out with knives. The men were alone  
and before beginning the duel locked  
the door. Soon after they got at each  
other the lamp was extinguished and  
the fight was continued for 15 minutes  
in the dark. The tenement in which  
Harris roomed contained hundreds of  
negroes, who heard the awful uproar  
and the infuriated cries and screams  
of the fighters, but none dared break  
in until both men were heard to fall  
and only groans could be heard. Then  
the police came and the door was  
broken open. The furniture was  
wrecked and on the floor lay Harris  
unconscious and with a dirk sticking  
in his breast. His face, body and  
clothes were slashed with cuts. An-  
thony had as many cuts, but none so  
serious as the one which laid Harris  
low. Harris is believed to be fatally  
wounded. Anthony was locked up.

James Smith, a Cuban negro,  
stabbed Maud Thompson 30 times.  
She is dying at a hospital and he is  
under arrest. Hundreds of negroes  
chased and fired many shots at Smith  
in an attempt to kill him as he ran  
through the streets.

## TO PROTECT PRESIDENT

BILL FOR THE PUNISHMENT OF  
ATTACKS UPON THE CHIEF  
EXECUTIVE.

INTRODUCED BY MR. HOAR

Murder or Attempted Murder Punish-  
able With Death—Conspiracy to  
Kill the Ruler, Twenty Years' Im-  
prisonment—Anyone Aiding in the  
Escape of a Guilty Person to Be  
Punished as if a Principal.

Washington, Dec. 5.—Senator Hoar  
has introduced a bill for the protec-  
tion of the president, which provides  
as follows:

"That any person who shall within  
the limits of the United States or any  
place subject to the jurisdiction there-  
of willfully will or cause the death of  
the president of the United States or  
any officer thereof, or who shall will-  
fully kill or cause the death of the  
ruler, or chief magistrate of any for-  
eign country, shall be punished with  
death.

"That any person who shall within  
the limits of the United States or any  
place subject to the jurisdiction there-  
of make an attempt on the life of the  
president of the United States or any  
officer thereof, or who shall make an  
attempt on the life of the ruler, or  
chief magistrate of any foreign coun-  
try shall be punished with death.

"That any person who shall within  
the limits of the United States or any  
place subject to the jurisdiction there-  
of advise the killing of the president  
of the United States or any officer  
thereof, or who shall conspire to ac-  
complish the same, or who shall advise  
or counsel the killing of the ruler or  
chief magistrate of any foreign coun-  
try, or who shall conspire to accom-  
plish the same, shall be punished by  
imprisonment not exceeding 20 years.

"That any person who has conspired  
as aforesaid may be indicted and con-  
victed separately, although the other  
party or parties to the conspiracy are  
not indicted or convicted.

"That any person who shall will-  
fully and knowingly aid in the escape  
from punishment of any person guilty  
of either of the acts mentioned in the  
foregoing sections shall be deemed an  
accomplice after the fact and shall  
be punished as if a principal, although  
the other party or parties to said of-  
fense shall not be indicted or con-  
victed."

## BILLS AND RESOLUTIONS.

The Whole Day in the Senate Devoted  
to Their Introduction.

Washington, Dec. 5.—Practically  
the entire time of the senate was de-  
voted to the introduction of bills and  
resolutions. Two of these measures,  
relating to the suppression of anarchy  
and the dealing with anarchists, were  
allowed to lie on the table so that  
their authors, Mr. McComas of Mary-  
land and Mr. Vest of Missouri, may  
bring them to the early attention of  
the senate. The isthmian canal report  
was transmitted to the senate by the  
president and several bills providing  
for the construction of the waterway,  
one of them by Mr. Morgan of Ala-  
bama, who has led the movement for  
the canal in the past, were presented.

Senator Lodge introduced his im-  
migration bill, providing for an educa-  
tional test for the admission of im-  
migrants. The writing test is removed  
and the new bill requires only that the  
immigrant shall be required to be able  
to read.

Senator Scott introduced a bill  
amending the immigration laws so as  
to require persons about to immigrate  
to the United States to secure from the  
nearest American minister or consul  
a certificate establishing his charac-  
ter and prohibiting the landing of an  
immigrant who cannot present such a certificate.

Senator Jones of Arkansas intro-  
duced without amendment the anti-  
trust bill which passed the house dur-  
ing the last session of congress but  
failed to pass the senate.

## AMERICA FREELY MENTIONED.

Debate on the German Tariff Bill in  
the Reichstag.

Berlin, Dec. 5.—During the course  
of the tariff debate in the reichstag  
the United States was freely men-  
tioned. Dr. Paasche and Herr Gothen  
urged that the tariff bill be referred  
to a committee. The former argued  
that the duties were not sufficiently  
protective and declared that the United  
States owed her pre-eminence to her  
immense productive powers and  
protective policy. Herr Gothen, on  
the other hand, warned the reichstag  
against entering on a tariff war with  
the United States, which, he said, was  
able to inflict greater damage on Ger-  
many than she would receive. No  
conclusion was reached.

## Reorganizing the Military and Navy.

Peking, Dec. 5.—Native papers say  
that Yuan Shi Kai, the governor of  
Chi Li, proposes to reorganize the Pei  
Yang naval forces under British and  
American instructors and that he will  
consolidate the military forces of Chi  
Li into an army corps numbering 100,  
000 men under foreign instructors. The  
court starts for Peking Dec. 14.

## THE SAMAR MASSACRE.

Was Long Planned and Carried Out  
With Precision.

Victoria, B. C., Dec. 5.—The steamer  
Shinai Maru, which arrived during  
the day, brought further particulars  
of the massacre at Balangiga, Samar.  
It seems that the attack was long  
planned and carried out with pre-  
cision. The night previous to the  
massacre two women of the place  
gathered in the church to pray for  
their husbands and relations and dur-  
ing the day a sealed coffin was brought  
into the church. In this coffin num-  
bers of bolos were secreted and dur-  
ing the night the bolomen stealthily  
hid in the church and armed them-  
selves. The next morning the attack-  
ers were all ready within the church  
and one of the native police gave the  
signal by wrestling a gun from a sen-  
try and after firing crying the word  
agreed upon.

Then the bolomen rushed from the  
church and the surprised soldiers, who  
were at breakfast without rifles or  
other arms, were massacred. Private  
Myers, one of the survivors of the stand  
made by Corporal Burke and several  
others, who had revolvers and rifles.  
The bolomen were driven from the bar-  
racks room and shot as they jumped  
through the windows. Sergeant Beatro  
attempted to rescue the officers, but it  
was too late, and, after driving back  
the bolomen, the survivors took down  
the American flag and escaped, hav-  
ing a trying time before Bazez was  
reached. During the fight Myers says  
one American who had his left arm  
cut off dropped to the ground and  
worked his rifle with the other until  
cut down.

## AGREES TO COME IN.

Diaz Will Surrender on the Terms  
Given the Colon Liberals.

Colon, Colombia, Dec. 5.—The Brit-  
ish cruiser Tribune, which sailed  
from here Sunday with the British  
consul on board, has returned to Colon  
from Bocas del Toro, bringing news  
that the latter town is in the hands of  
the government and that its inhab-  
itants are gaily celebrating the recap-  
ture of Colon.

The peace commission, composed of  
a representative of prominent Lib-  
erals of Panama, a representative of  
the Colombian government and Gen-  
eral de la Rosa, secretary of General  
Domingo Diaz, which started for the  
interior to obtain an interview with  
Generals Diaz and Lugo and induce  
them to give up the struggle and re-  
turn to Panama, have returned to  
that city. The commissioners saw  
General Diaz, who agrees to lay down  
his arms and come to Panama under  
the same conditions which were agreed  
upon at the time of the surrender of  
Colon.

## RECIPROCITY IS NECESSARY.

General Wood Confers With Senators  
in Behalf of Cuba.

Washington, Dec. 5.—General Leon-  
ard Wood, military governor of Cuba,  
accompanied by his secretary and Mr.  
Gonzales Quesada, was at the Capitol  
confering with senators in the inter-  
est of Cuban reciprocity. General  
Wood told the senators that some  
measure of reciprocity on Cuban sugar  
and tobacco, particularly the former,  
is essential to giving the island that  
degree of stability and prosperity  
which was contemplated when the  
United States dispossessed Spanish  
rule.

Concerning the renewed reports  
from Havana that General Maso's  
friends are being exerted in the  
United States' influence is being exerted  
in favor of Estrada Palma's candidacy,  
General Wood says that every care is  
being taken to avoid such influence,  
the importance of which he believes  
to be much overestimated.

## APPROVES THE PROJECT.

Pan-American Congress Favors an In-  
ternational Railway.

Mexico City, Dec. 5.—At the day's  
session of the Pan-American confer-  
ence Lopez Portillo of Mexico pre-  
sented an amendment touching the  
neutrality clause of the Pan-American  
railway project. Senator Davis asked  
that his recommendations be passed  
upon in their present form and that  
Mr. Portillo's amendment be incor-  
porated as an addition. The chair  
ruled, however, that the amendment  
must go to the committee on Pan-  
American railway.

Mr. Davis read 20 reasons in favor  
of the construction of the road. A  
vote was then taken on the project  
in general and it was approved by 18  
votes.

## ABUSED FOR TATTLING.

Alleged Cause of a Cruel Hazing in a  
Tennessee College.

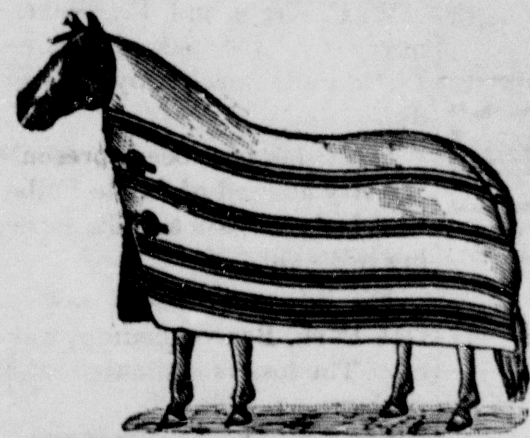

Harriman, Tenn., Dec. 5.—Four mem-  
bers of the senior class at the Amer-  
ican Temperance university bound and  
gagged Cadet Lester, carried him to  
the woods nearby, tied him to a tree  
and whipped him. Then they placed  
him under a hydrant near the dormi-  
tory, turned on the water and left  
him. Lester says he stayed there two  
hours, when a student found him in a  
semi-conscious condition.

The officer of the guard reported  
that he found four cadets besides Les-  
ter out of their rooms. Lester is said  
to have reported many little misde-  
meanors. He will proceed against his  
assailants in the courts.

## NO TRACE OF MISS STONE.

Minute Investigation Made of the Ellidreth Valley.

Constantinople, Dec. 5.—The recent  
silence of Miss Ellen M. Stone, the cap-  
tive American missionary, is largely  
attributed to the unusually heavy  
snows. A minute investigation of the  
Ellidreth valley, where the captives  
are reported to have been buried, has  
nearly been completed, but fails to  
show that Miss Stone and her com-  
panion, Mme. Taika, were ever in that  
district.

## Accquitted on a New Trial.

Deadwood, S. D., Dec. 5.—The jury  
in the case of William Yoakum of  
Belle Fourche, tried in this city for  
killing James Barnes five years ago,  
brought in a verdict of not guilty.  
Yoakum was sentenced to life impris-  
onment, served four years of his term  
and was then granted a new trial.

## Glass Trust Abandons Plants.

Pittsburg, Dec. 5.—The National  
Glass company announced that it has  
abandoned its plants at Findlay, O.,  
and Summitville, Ind. Each plant em-  
ploys 100 hands. The work is to be  
done at the company's new plant at  
Cambridge, O., which will begin op-  
eration Jan. 1. Employees as well as  
equipment at the abandoned plants  
will be transferred to Cambridge.

## GERMANY'S YIELD OF GRAIN.

Will Have to Import 3,000,000 Tons of  
Wheat and 1,000,000 Tons of Rye.

Washington, Dec. 5.—The state de-  
partment has received from Consul  
Albert a calculation of the results of  
the harvest in Germany for the present  
year, based on the answers to 5,000  
circular letters of inquiry. It is esti-  
mated that the crop will total: Wheat,  
2,470,000 tons; rye, 8,145,500 tons;  
summer barley, 3,021,860 tons, and  
oats, 7,105,000 tons. To make up the  
deficiency in wheat and rye it is esti-  
mated that Germany will import this  
year 3,000,000 tons of wheat and 1-  
000,000 tons of rye.

## RIOT IS THREATENED.

Health Officer Brings Smallpox Pa-  
tients to Interlochen, Mich.

Traverse City, Mich., Dec. 5.—A  
riot is threatened at Interlochen, 20  
miles from here. Health Officer Hop-  
kins removed seven smallpox patients  
from a lumber camp a mile from  
town to the village against the vigor-  
ous protest of the townspeople. The  
Pere Marquette and Michigan and the  
Northern railroad have cut Interlo-  
chen off their schedule, as patients  
are located near the depot. Two  
cases are confined in the town hall  
and one is dying. The people are  
wildly excited.

The Whole Day in the Senate Devoted  
to Their Introduction.

Washington, Dec. 5.—Practically  
the entire time of the senate was de-  
voted to the introduction of bills and  
resolutions. Two of these measures,  
relating to the suppression of anarchy  
and the dealing with anarchists, were  
allowed to lie on the table so that  
their authors, Mr. McComas of Mary-  
land and Mr. Vest of Missouri, may  
bring them to the early attention of  
the senate. The isthmian canal report  
was transmitted to the senate by the  
president and several bills providing  
for the construction of the waterway,  
one of them by Mr. Morgan of Ala-  
bama, who has led the movement for  
the canal in the past, were presented.  
Senator Lodge introduced his immi-  
gration bill, providing for an educa-  
tional test for the admission of immi-  
grants. The writing test is removed  
and the new bill requires only that the  
immigrant shall be required to be able  
to read.

Senator Scott introduced a bill  
amending the immigration laws so as  
to require persons about to immigrate  
to the United States to secure from the  
nearest American minister or consul  
a certificate establishing his charac-  
ter and prohibiting the landing of an  
immigrant who cannot present such a certificate.

Senator Jones of Arkansas intro-  
duced without amendment the anti-  
trust bill which passed the house dur-  
ing the last session of congress but  
failed to pass the senate.

## AMERICA FREELY MENTIONED.

Debate on the German Tariff Bill in  
the Reichstag.

Berlin, Dec. 5.—During the course  
of the tariff debate in the reichstag  
the United States was freely men-  
tioned. Dr. Pasche and Herr Gothen  
urged that the tariff bill be referred  
to a committee. The former argued  
that the duties were not sufficiently  
protective and declared that the United  
States owed her pre-eminence to her  
immense productive powers and  
protective policy. Herr Gothen, on  
the other hand, warned the reichstag  
against entering on a tariff war with  
the United States, which, he said, was  
able to inflict greater damage on Ger-  
many than she would receive. No  
conclusion was reached.

## Reorganizing the Military and Navy.

Peking, Dec. 5.—Native papers say  
that Yuan Shi Kai, the governor of  
Chi Li, proposes to reorganize the Pei  
Yang naval forces under British and  
American instructors and that he will  
consolidate the military forces of Chi  
Li into an army corps numbering 100,  
000 men under foreign instructors. The  
court starts for Peking Dec. 14.

## THE SAMAR MASSACRE.

Was Long Planned and Carried Out  
With Precision.

Victoria, B. C., Dec. 5.—The steamer  
Shinai Maru, which arrived during  
the day, brought further particulars  
of the massacre at Balangiga, Samar.  
It seems that the attack was long  
planned and carried out with pre-  
cision. The night previous to the  
massacre two women of the place  
gathered in the church to pray for  
their husbands and relations and dur-  
ing the day a sealed coffin was brought  
into the church. In this coffin num-  
bers of bolos were secreted and dur-  
ing the night the bolomen stealthily  
hid in the church and armed them-  
selves. The next morning the attack-  
ers were all ready within the church  
and one of the native police gave the  
signal by wresting a gun from a sen-  
try and after firing crying the word  
agreed upon.

Then the bolomen rushed from the  
church and the surprised soldiers, who  
were at breakfast without rifles or  
other arms, were massacred. Private  
Myers, one of the survivors of the stand  
made by Corporal Burke and several  
others, who had revolvers and rifles.  
The bolomen were driven from the bar-  
racks room and shot as they jumped  
through the windows. Sergeant Beato  
attempted to rescue the officers, but it  
was too late, and, after driving back  
the bolomen, the survivors took down  
the American flag and escaped, hav-  
ing a trying time before Bazez was  
reached. During the fight Myers says  
one American who had his left arm  
cut off dropped to the ground and  
worked his rifle with the other until  
cut down.

## AGREES TO COME IN.

Diaz Will Surrender on the Terms  
Given the Colon Liberals.

Colon, Colombia, Dec. 5.—The British  
cruiser Tribune, which sailed  
from here Sunday with the British  
consul on board, has returned to Colon  
from Bocas del Toro, bringing news  
that the latter town is in the hands of  
the government and that its inhab-  
itants are daily celebrating the recap-  
ture of Colon.

The peace commission, composed of  
a representative of prominent Lib-  
erals of Panama, a representative of  
the Colombian government and Gen-  
eral de la Rosa, secretary of General  
Domingo Diaz, which started for the  
interior to obtain an interview with  
Generals Diaz and Lugo and induce  
them to give up the struggle and re-  
turn to Panama, have returned to  
that city. The commissioners saw  
General Diaz, who agrees to lay down  
his arms and come to Panama under  
the same conditions which were agreed  
upon at the time of the surrender of  
Colon.

## RECIPROCITY IS NECESSARY.

General Wood Confers With Senators  
in Behalf of Cuba.

Washington, Dec. 5.—General Leon-  
ard Wood, military governor of Cuba,  
accompanied by his secretary and Mr.  
Gonzales Quesada, was at the Capitol  
confering with senators in the inter-  
est of Cuban reciprocity. General  
Wood told the senators that some  
measure of reciprocity on Cuban sugar  
and tobacco, particularly the former,  
is essential to giving the island that  
degree of stability and prosperity  
which was contemplated when the  
United States dispossessed Spanish  
rule.

Concerning the renewed reports  
from Havana that General Maso's  
friends complain that the United  
States' influence is being exerted in  
favor of Estrada Palma's candidacy,  
General Wood says that every care is  
being taken to avoid such influence,  
the importance of which he believes  
to be much overestimated.

## APPROVES THE PROJECT.

Pan-American Congress Favors an In-  
ternational Railway.

Mexico City, Dec. 5.—At the day's  
session of the Pan-American confer-  
ence Lopez Portillo of Mexico pre-  
sented an amendment touching the  
neutrality clause of the Pan-American  
railway project. Senator Davis asked  
that his recommendations be passed  
upon in their present form and that  
Mr. Portillo's amendment be incor-  
porated as an addition. The chair  
ruled, however, that the amendment  
must go to the committee on Pan-  
American railway.

Mr. Davis read 20 reasons in favor  
of the construction of the road. A  
vote was then taken on the project  
in general and it was approved by 18  
votes.

## ABUSED FOR TATTLING.

Alleged Cause of a Cruel Hazing in a  
Tennessee College.

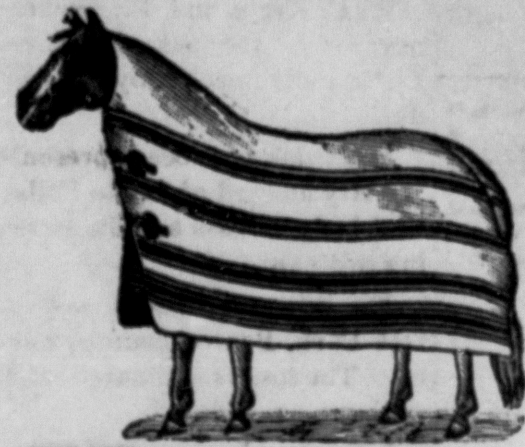

Harriman, Tenn., Dec. 5.—Four mem-  
bers of the senior class at the Ameri-  
can Temperance university bound and  
gagged Cadet Lester, carried him to  
the woods nearby, tied him to a tree  
and whipped him. Then they placed  
him under a hydrant near the dormi-  
tory, turned on the water and left him.  
Lester says he stayed there two  
hours, when a student found him in a  
semi-conscious condition.

The officer of the guard reported  
that he found four cadets besides Les-  
ter out of their rooms. Lester is said  
to have reported many little misde-  
meanors. He will proceed against his  
assailants in the courts.

## NO TRACE OF MISS STONE.

Minute Investigation Made of the Elli-  
dredh Valley.

Constantinople, Dec. 5.—The recent  
silence of Miss Ellen M. Stone, the cap-  
tive American missionary, is largely  
attributed to the unusually heavy  
snows. A minute investigation of the  
Ellidredh valley, where the captives  
are reported to have been buried, has  
nearly been completed, but fails to  
show that Miss Stone and her com-  
panion, Mme. Telika, were ever in that  
district.

## Acquitted on a New Trial.

Deadwood, S. D., Dec. 5.—The jury  
in the case of William Yoakum of  
Belle Fourche, tried in this city for  
killing James Barnes five years ago,  
brought in a verdict of not guilty.  
Yoakum was sentenced to life impris-  
onment, served four years of his term  
and was then granted a new trial.

## Glass Trust Abandons Plants.

Pittsburg, Dec. 5.—The National  
Glass company announced that it has  
abandoned its plants at Findlay, O.,  
and Summitville, Ind. Each plant em-  
ploys 100 hands. The work is to be  
done at the company's new plant at  
Cambridge, O., which will begin op-  
eration Jan. 1. Employees as well as  
equipment at the abandoned plants  
will be transferred to Cambridge.

## GERMANY'S YIELD OF GRAIN.

Will Have to Import 3,000,000 Tons of  
Wheat and 1,000,000 Tons of Rye.

Washington, Dec. 5.—The state de-  
partment has received from Consul  
Albert a calculation of the results of  
the harvest in Germany for the present  
year, based on the answers to 5,000  
circular letters of inquiry. It is esti-  
mated that the crop will total: Wheat,  
2,470,000 tons; rye, 8,145,500 tons;  
summer barley, 3,021,500 tons, and  
oats, 7,105,000 tons. To make up the  
deficiency in wheat and rye it is esti-  
mated that Germany will import this  
year 3,000,000 tons of wheat and 1-  
000,000 tons of rye.

## RIOT IS THREATENED.

Health Officer Brings Smallpox Pa-  
tients to Interlochen, Mich.

Traverse City, Mich., Dec. 5.—A  
riot is threatened at Interlochen, 20  
miles from here. Health Officer Hop-  
kins removed seven smallpox patients  
from a lumber camp a mile from  
town to the village against the vigor-  
ous protest of the townspeople. The  
Pere Marquette and Michigan and the  
Northeastern railroads have cut Inter-  
lochen off their schedule, as patients  
are located near the depot. Two  
cases are confined in the town hall  
and one is dying. The people are  
wildly excited.

## EPHRAIM'S BUSINESS WAY.

Not Much Romance About Him Even In Courtship.

"No, there wasn't much romance about Ephraim," said the postmaster, stroking his beard thoughtfully. Ephraim had been the great man of the town, and his death the day before had called out reminiscences to which the postmaster seemed anxious to contribute. "I don't s'pose if you'd b'iled Ephraim or put him under the stone breaker you could have drawn a tear out of him. Never saw him laugh. Likely enough he never kissed his wife or one of his children."

"And yet he wasn't a mean man or a hard man. I cal'late he often laughed or cried inside, but 'twasn't his way to show it. And he was a natural born business man, up and down, top to toe, and that partly accounts for it too."

"D'y'e ever hear how he supposed to know, because she and my wife was Aunt Eleanor, his wife? Happens I cousins, and the perseedin' tickled Eleanor so't she had to tell of it."

"Ephraim wasn't ever a talkative feller, and he didn't go around much with the other young folks. Jest stayed home and 'tended to his knittin' work, as it were, but he was well thought of by everybody, and Eleanor and her pa and ma always made him welcome."

"So he came in sort o' casual one p'tic'lar Sat'day night and set around as usual, puttin' in a word now and then, till Eleanor's pa went out to see a sick cow he had and Eleanor's ma started off up chamber somewheres. And then Ephraim speaks up all at once, and he says:

"'T'd kind o' like to marry ye, Eleanor,' says he."

"'Sho' says she. 'Would ye?' She was dumfounded and couldn't think of anything else to say."

"'Yes, I would,' says he. He never moved out of his chair, but he looked her right square in the eye, reel friendly. 'I've got a place o' my own, ye know—rented, but I can take it back 'most any time—and \$250 out on interest and enough besides to stock the place. I make ye an offer,' he says, 'and I'll hold it open for ye till next Sat'day night.'

"Eleanor was starin' at him all the time, mind ye, with her mouth open, and before she could get any word to put into it, 'It's time I was gettin' along home,' Ephraim says, 'so I'll bid ye good night, Eleanor.'

"Well, that was all there was to it. First off Eleanor was mad at his makin' an offer so fashion and leavin' it open jest rech a time, as though he'd been dickerin' for a yoke o' steers. But when she came to think it over she realized it was only Ephraim's way, and she believed he liked her, and she knew she liked him, and so she took him up, and neither o' 'em was ever sorry for it."

"No, Ephraim didn't make love romantic—no gettin' down on his knees and writin' poetry and sech like doin's. But if ye ever see a woman better provided for and more uplifted and more waited on by inches than Aunt Eleanor was, I'd like to have ye pint her out."

"Actions speak louder'n words, they say, and I cal'late that's true. There's women in this town would be willin' to forget they was married if they could be treated like human bein's now."—Youth's Companion.

## WAS HIT BY AN ENGINE

This afternoon about 3 o'clock the passenger going north of the Minnesota & International struck a farmer, whose name could not be learned, near Merrifield.

The man was walking on the track going north and did not hear the approaching train. He was thrown thirty feet in the air. The train stopped and the injured man was brought back to Brainerd and taken to the Northern Pacific Sanitarium. The seriousness of the injuries could not be learned this afternoon.

## The Energetic Hen.

There was Once an Energetic Hen who paid Strict Attention to Duty and never was below the Average in her Daily Output of Eggs.

Each time that she Laid an Egg a Rooster would Crow lustily and excitedly and Announce the Fact to the World.

Now, there were Certain Hens that belonged to the Gossip Brigade, and they were Filled with Envy because of This.

So they went to the Energetic Hen and said:

"We think it Just Awful the way Mr. Rooster takes all the Credit for your Success. Every day he Crows and Exults over What is Really your Achievement."

But the Energetic Hen smiled Cheerfully and Answered:

"Do not Lose any More Sleep over it, for he is my Press Agent."

## Asphalt and Trees.

Experience in the east in regard to the effect of asphalt pavement upon trees by the roadside has taught observers that the influence of the impervious pavement depends upon the character of the soil. Where there is a substratum of rock the trees will suffer, because the pavement will prevent moisture from reaching the roots from above, from which direction all nourishment for the trees must come. On the other hand, where there is deep soil the roots will find plenty of nourishment under the pavement, which serves to keep the moisture from evaporating and holds it in supply for the trees.

It will probably be found that where trees have died as a result of asphalt the roots were cut by the excavators for the concrete foundation. Trees which are thus robbed of roots must be deprived of branches sufficient to offset the loss of nourishment. The builders of cement footpaths are also responsible for the injury of a good many trees. They chop out all the roots that interfere with the laying of a cinder foundation, and some trees have their main roots very close to the surface of the soil.—Exchange.

Charles S. Greeves, who resides in West Duluth, and who has large farms in North Dakota, has recently made some purchases of lands on the Mesaba range, which he says have not turned out just what were represented to him. Mr. Greeves claims that through local agents he was shown a tract of land that had plenty of timber and had a very favorable appearance. He was induced to buy and when locating the purchase with the aid of a cruiser, since the sale, he claims that he was sold an entirely different tract than that which he was looking over, and that a large part of it is under water. Mr. Greeves says that the end is not yet and that he will take the matter into the courts.—Duluth News-Tribune.

## EPHRAIM'S BUSINESS WAY.

Not Much Romance About Him Even in Courtship.

"No, there wasn't much romance about Ephraim," said the postmaster, stroking his beard thoughtfully. Ephraim had been the great man of the town, and his death the day before had called out reminiscences to which the postmaster seemed anxious to contribute. "I don't suppose if you'd killed Ephraim or put him under the stone breaker you could have drawn a tear out of him. Never saw him laugh. Likely enough he never kissed his wife or one of his children.

"And yet he wasn't a mean man or a hard man. I call him often laughed or cried inside, but 'twasn't his way to show it. And he was a natural born business man, up and down, top to toe, and that partly accounts for it too.

"D'ye ever hear how he pupposed to know, because she and my wife was Aunt Eleanor, his wife? Happens I cousins, and the perseeidin' tickled Eleanor so't she had to tell of it.

"Ephraim wasn't ever a talkative feller, and he didn't go around much with the other young folks. Jest stayed home and 'tended to his knittin' work, as it were, but he was well thought of by everybody, and Eleanor and her pa and ma always made him welcome.

"So he came in sort o' casual one p'tic'lar Sat'day night and set around as usual, puttin' in a word now and then, till Eleanor's pa went out to see a sick cow he had and Eleanor's ma started off up chamber somewheres. And then Ephraim speaks up all at once, and he says:

"'I'd kind o' like to marry ye, Eleanor,' says he.

"'Sho!' says she. 'Would ye?' She was dumfounded and couldn't think of anything else to say.

"'Yes, I would,' says he. He never moved out of his chair, but he looked her right square in the eye, reel friendly. 'I've got a place o' my own, ye know—rented, but I can take it back 'most any time—and I'll give ye interest and enough besides to stock the place. I make ye an offer,' he says, 'and I'll hold it open for ye till next Sat'day night.'

"Eleanor was starin' at him all the time, mind ye, with her mouth open, and before she could get any word to put into it, 'It's time I was gettin' along home,' Ephraim says, 'so I'll bid ye good night, Eleanor.'

"Well, that was all there was to it. First off Eleanor was mad at his makin' an offer so fashion and leavin' it open jest sech a time, as though he'd been dickerin' for a yoke o' steers. But when she came to think it over she realized it was only Ephraim's way, and she believed he liked her, and she knew she liked him, and so she took him up, and neither o' 'em was ever sorry for it.

"No, Ephraim didn't make love romantic—no gettin' down on his knees and writin' poetry and sech like doin's. But if ye ever see a woman better provided for and more uplifted and more waited on by inches than Aunt Eleanor was, I'd like to have ye p'int her out.

"Actions speak louder'n words, they say, and I callate that's true. There's women in this town would be willin' to forget they was married if they could be treated like human bein's now."—Youth's Companion.

## WAS HIT BY AN ENGINE

This afternoon about 3 o'clock the passenger going north of the Minnesota & International struck a farmer, whose name could not be learned, near Merrifield.

The man was walking on the track going north and did not hear the approaching train. He was thrown thirty feet in the air. The train stopped and the injured man was brought back to Brainerd and taken to the Northern Pacific Sanitarium. The seriousness of the injuries could not be learned this afternoon.

## ABEL E. WARREN'S LIFE CRUSHED OUT

Was Found Yesterday Afternoon  
Not Far From His Home  
Near Garrison.

### HE WAS ALONE IN THE WOODS.

The Young Man had Lived In That  
vicinity Since Childhood--  
Was Well Known.

Yesterday afternoon Abel E. Warren, of Garrison, and well known in this city, was found dead not far from his farm home, his life, it is thought, having been crushed out by a rolling log.

Warren lived with his brother Loren Warren, on a homestead near Garrison. Yesterday afternoon shortly after the noon hour he hitched up a team and went in the woods to do some skidding, but as there was no one with him it is impossible to tell just how the distressing accident occurred. He was found underneath a large log and the indications about the scene lead to the belief that he had been caught somehow in skidding the log and was dragged some distance. His features were badly distorted and it presented an anguishing picture.

Deceased was in his twenty-eighth year and had lived in the vicinity of Garrison from boyhood, where he was highly respected. He was a son of Mr. and Mrs. Willard Warren, who live about nine miles east of this city and was a cousin of Elmer E. Warren and Elza E. Warren, who live in East Brainerd. His brother Loren Warren, is well known in this city and often makes trips here to sell furs, skins etc.

Deceased was a member of the Modern Woodmen lodge of Garrison and the funeral will be held under the auspices of this order. The funeral will probably be held at Garrison tomorrow afternoon.

Attorney C. A. Allbright, who had been in the vicinity of Garrison yesterday afternoon brought the news of the sad accident to this city. He had known the deceased from boyhood days.

D. G. Clark, the man who was arrested by the police sometime ago on the charge of misappropriating some \$400 or \$500 belonging to an Illinois commission firm, and whose home is at New Paynesville, is said to have some very wealthy relatives who are intervening for him in this matter.

Clark will have a hearing on December 9 and it is thought perhaps that an agreement and settlement can be patched up.

## A FINE OPERA HOUSE.

Editor Fuller of the Little Falls Transcript  
Thinks It is One of the Neatest  
in the Northwest.

The following is taken from the Little Falls Transcript about Brainerd's new opera house:

"Brainerd's new theatre, the Park Opera house, was opened on Monday evening by a company that played 'The Casino Girl.' There was a benefit sale of tickets, and the patronage of the citizens was so liberal that the receipts for the first night were about \$2,500. The house is one of the neatest in the northwest being up-to-date in every respect, and it has one of the largest stages west of Chicago.

"The seating capacity of the theatre is 877, the seats being so arranged as to secure a good view of the stage from any position. C. P. Walker, who has the management of the Fargo Grand Forks, Crookston and Winnipeg theatres, has leased the new house for a term of five years.

"The property is owned by a joint stock company, composed of prominent citizens, the officers being: President, A. F. Ferris; vice president, R. R. Wise; treasurer, F. B. Johnson, and secretary, G. D. LaBar.

### DOING SOMETHING FOR INDIANS.

Government Urges that the Subject of Agriculture Should be Studied--Domestic Science for Girls.

The annual report of the superintendent of Indian schools has been submitted to the commissioner of Indian affairs. It is an interesting document, showing what the government is doing for the practical education and advancements of his wards, and embraces ideas gleaned from personal observation in the field together with the views of various superintendents, Indian workers and prominent educators throughout the United States. The general superintendent has outlined a uniform course of study for the students of the Indian schools, and makes a strong argument for education along practical lines which will improve the Indian's mode of life. In this connection the subject of agriculture is taken up, embracing dairying and other branches of farm study, as well as domestic science for the girls. Speaking of agriculture, the superintendent says:

"No occupation will so soon dispossess the Indian of his nomadic instincts and fix upon him permanency of habitation as agriculture. Tilling of the soil will necessarily oblige him to remain in one spot, and the performing of certain duties at proper times of the year will instill into him the necessity for systematic work and for giving attention to details. To make any real progress the Indian must have a home, wherein will center all his interests, hopes and ambitions, and a home on a farm will best fill these requirements. As there is no field in which he can so readily contribute to his own support, he should not only be encouraged, but urged to cease leasing his allotment, to cultivate more acres, raise better crops, and live the thrifty, independent life that falls to the lot of tillers of the soil."

Miss Reed points out that the Indians own their land, and each one should be taught to farm it himself, in preference to his old-time custom of renting to his industrious white neighbors, and himself living in idleness. This idea instilled into the red man will be a long step toward actual reform. Attention is called to the fact that the first government appropriation in 1819 was but \$10,000, while during the past year the sum of \$3,224,250 was expended for Indian schools and that the total number of pupils enrolled was nearly 25,000. The superintendent points to the benefits resulting from the introduction of the outing system, and suggests systematic methods of selecting pupils for school attendance calculated to reduce to the lowest possible degree of evils which have heretofore existed.

A gratifying feature of Indian education, as indicated by the report, is the rapid growth of industrial training methods in the Indian schools. Practical industrial training, with elementary literary studies applicable to industrial work, should make the Indian a useful citizen, and this is the aim of the Indian school service under its present management.

## FREIGHT WRECK ON NORTHERN PACIFIC

Eight Cars and an Engine Are  
Derailed Near Sylvan Lake  
This Morning

### PASSENGER TRAINS ARE HELD

Considerable Damage Done but  
No Lives Were Lost by the  
Accident

There was a very bad wreck on the Northern Pacific at an early hour this morning near Sylvan Lake which delayed both the west bound and east bound passenger trains several hours.

The wreck occurred near a siding and it was several hours before the engine and the demolished cars could be cleared. The wrecked train was an extra freight going west and was running at a pretty high rate of speed when the accident occurred.

Eight cars were thrown off the track with the engine. The passenger from the west due here at 3:45 was delayed four hours and a half and the passenger going west was held up until about 8 o'clock this morning before she could get by.

Although it was a rather bad wreck and considerable damage was done no one was injured.

## MUSIC AND DRAMA.

### HOYT'S BEST COMEDY.

Tomorrow night Chas. H. Hoyt's satirical comedy, "A Texas Steer," will be presented to the patrons of Brainerd's new and palatial theatre. The engagement is for one night only, and no doubt the attendance will be large, as this is probably the most legitimate as well as the funniest of Hoyt's clever comedies. It was in this picture of Washington life that Mr. Tim Murphy, since developed into a star, made his first real impression on the public.

As a satire upon office-holders and office-seekers nothing has ever been written to equal "A Texas Steer."

One of the chief reasons of Hoyt's great success was his clever way of mingling humor with pathos. In the midst of the rollicking fun of "A Texas Steer" there are moments of pathos that surprise one almost to tears.

The advance sale opened this morning at Dunn's drug store, and the demand for seats was unusually large.

### LIQUID AIR.

The lecture on liquid air, with experimental demonstrations with this much-discussed scientific discovery, will take place at the Brainerd opera house next Wednesday night. The net proceeds will go to the public library.

Mrs. N. G. Blake, of West Brainerd says: "I suffered a great deal from inflammation of the kidneys and I grew worse in place of better. My back in the region of the kidneys was sore, was lame and hurt me very much, an aching pain being ever present. The kidney secretions were dark in color and on standing deposited much sediment. When Doan's Kidney Pills were advertised I sent my son for a box. I was a little afraid I would not be able to use them for I cannot take some kind of medicine.

I found, however, that they were mild in their operations and did not produce any bad effects. Before taking them very long the kidney secretions became healthy in color, all deposit was removed, and the soreness and pain were replaced by a perfectly comfortable feeling."

## ABEL E. WARREN'S LIFE CRUSHED OUT

Was Found Yesterday Afternoon  
Not Far From His Home  
Near Garrison.

### HE WAS ALONE IN THE WOODS.

The Young Man had Lived In That  
vicinity Since Childhood--  
Was Well Known.

Yesterday afternoon Abel E. Warren, of Garrison, and well known in this city, was found dead not far from his farm home, his life, it is thought, having been crushed out by a rolling log.

Warren lived with his brother Loren Warren, on a homestead near Garrison. Yesterday afternoon shortly after the noon hour he hitched up a team and went in the woods to do some skidding, but as there was no one with him it is impossible to tell just how the distressing accident occurred. He was found underneath a large log and the indications about the scene lead to the belief that he had been caught somehow in skidding the log and was dragged some distance. His features were badly distorted and it presented an anguishing picture.

Deceased was in his twenty-eighth year and had lived in the vicinity of Garrison from boyhood, where he was highly respected. He was a son of Mr. and Mrs. Willard Warren, who live about nine miles east of this city and was a cousin of Elmer E. Warren and Elza E. Warren, who live in East Brainerd. His brother Loren Warren, is well known in this city and often makes trips here to sell furs, skins etc.

Deceased was a member of the Modern Woodmen lodge of Garrison and the funeral will be held under the auspices of this order. The funeral will probably be held at Garrison tomorrow afternoon.

Attorney C. A. Allbright, who had been in the vicinity of Garrison yesterday afternoon brought the news of the sad accident to this city. He had known the deceased from boyhood days.

### HAS WEALTHY RELATIVES.

D. G. Clark, of New Paynesville, Who is  
Accused of Misappropriating Funds.

Has Some Backing.

D. G. Clark, the man who was arrested by the police sometime ago on the charge of misappropriating some \$400 or \$500 belonging to an Illinois commission firm, and whose home is at New Paynesville, is said to have some very wealthy relatives who are intervening for him in this matter.

Clark will have a hearing on December 9 and it is thought perhaps that an agreement and settlement can be patched up.

### School Report.

The following is the report of school district No. 2, for first month ending November 1, 1901: Total number of pupils enrolled, 29; average daily attendance 20; pupils perfect in attendance during month: Mollie Avery, Lillian Johnson, Elsie Harrison, Edith Huffman, Herman Hartfield, Elmer Johnson, Ethel Redfield, Clifton Knowlen and Alvin Johnson.

Report for second month ending November 29, 1901: Average daily attendance 10; pupils perfect in attendance: Lillian Johnson, Ethel Redfield, Alvin Johnson and Elmer Johnson.

## A FINE OPERA HOUSE.

Editor Fuller of the Little Falls Transcript  
Thinks It is One of the Neatest  
in the Northwest.

The following is taken from the Little Falls Transcript anent Brainerd's new opera house:

"Brainerd's new theatre, the Park Opera house, was opened on Monday evening by a company that played 'The Casino Girl.' There was a benefit sale of tickets, and the patronage of the citizens was so liberal that the receipts for the first night were about \$2,500. The house is one of the neatest in the northwest being up-to-date in every respect, and it has one of the largest stages west of Chicago.

"The seating capacity of the theatre is 877, the seats being so arranged as to secure a good view of the stage from any position. C. P. Walker, who has the management of the Fargo Grand Forks, Crookston and Winnipeg theatres, has leased the new house for a term of five years.

"The property is owned by a joint stock company, composed of prominent citizens, the officers being: President, A. F. Ferris; vice president, R. R. Wise; treasurer, F. B. Johnson, and secretary, G. D. LaBar.

### DOING SOMETHING FOR INDIANS.

Government Urges that the Subject of Agriculture Should be Studied-  
Domestic Science for Girls.

The annual report of the superintendent of Indian schools has been submitted to the commissioner of Indian affairs. It is an interesting document, showing what the government is doing for the practical education and advancements of his wards, and embraces ideas gleaned from personal observation in the field together with the views of various superintendents, Indian workers and prominent educators throughout the United States. The general superintendent has outlined a uniform course of study for the students of the Indian schools, and makes a strong argument for education along practical lines which will improve the Indian's mode of life. In this connection the subject of agriculture is taken up, embracing dairying and other branches of farm study, as well as domestic science for the girls. Speaking of agriculture, the superintendent says:

"No occupation will so soon dispossess the Indian of his nomadic instincts and fix upon him permanency of habitation as agriculture. Tilling of the soil will necessarily oblige him to remain in one spot, and the performing of certain duties at proper times of the year will instill into him the necessity for systematic work and for giving attention to details. To make any real progress the Indian must have a home, wherein will center all his interests, hopes and ambitions, and a home on a farm will best fill these requirements. As there is no field in which he can so readily contribute to his own support, he should not only be encouraged, but urged to cease leasing his allotment, to cultivate more acres, raise better crops, and live the thrifty, independent life that falls to the lot of tillers of the soil."

Miss Reed points out that the Indians own their land, and each one should be taught to farm it himself, in preference to his old-time custom of renting to his industrious white neighbors, and himself living in idleness. This idea instilled into the red man will be a long step toward actual reform. Attention is called to the fact that the first government appropriation in 1819 was but \$10,000, while during the past year the sum of \$3,224,250 was expended for Indian schools and that the total number of pupils enrolled was nearly 25,000. The superintendent points to the benefits resulting from the introduction of the outing system, and suggests systematic methods of selecting pupils for school attendance calculated to reduce to the lowest possible degree of evils which have heretofore existed.

A gratifying feature of Indian education, as indicated by the report, is the rapid growth of industrial training methods in the Indian schools. Practical industrial training, with elementary literary studies applicable to industrial work, should make the Indian a useful citizen, and this is the aim of the Indian school service under its present management.

## FREIGHT WRECK ON NORTHERN PACIFIC

Eight Cars and an Engine Are  
Derailed Near Sylvan Lake  
This Morning

### PASSENGER TRAINS ARE HELD

Considerable Damage Done but  
No Lives Were Lost by the  
Accident

There was a very bad wreck on the Northern Pacific at an early hour this morning near Sylvan Lake which delayed both the west bound and east bound passenger trains several hours.

The wreck occurred near a siding and it was several hours before the engine and the demolished cars could be cleared. The wrecked train was an extra freight going west and was running at a pretty high rate of speed when the accident occurred.

Eight cars were thrown off the track with the engine. The passenger from the west due here at 3:45 was delayed four hours and a half and the passenger going west was held up until about 8 o'clock this morning before she could get by.

Although it was a rather bad wreck and considerable damage was done no one was injured.

## MUSIC AND DRAMA.

### HOYT'S BEST COMEDY.

Tomorrow night Chas. H. Hoyt's satirical comedy, "A Texas Steer," will be presented to the patrons of Brainerd's new and palatial theatre. The engagement is for one night only, and no doubt the attendance will be large, as this is probably the most legitimate as well as the funniest of Hoyt's clever comedies. It was in this picture of Washington life that Mr. Tim Murphy, since developed into a star, made his first real impression on the public.

As a satire upon office-holders and office-seekers nothing has ever been written to equal "A Texas Steer."

One of the chief reasons of Hoyt's great success was his clever way of mingling humor with pathos. In the midst of the rollicking fun of "A Texas Steer" there are moments of pathos that surprise one almost to tears.

The advance sale opened this morning at Dunn's drug store, and the demand for seats was unusually large.

### LIQUID AIR.

The lecture on liquid air, with experimental demonstrations with this much-discussed scientific discovery, will take place at the Brainerd opera house next Wednesday night. The net proceeds will go to the public library.

## J. J. HILL WILL RETIRE

**PRESIDENT OF GREAT NORTHERN RAILWAY TO SOON STEP DOWN AND OUT.**

### SUCCEEDED BY OLDEST SON

Retiring Magnate Will Continue to Be a Director of the System, but Desires to Be Relieved of the Detail Work Now Devolving Upon Him—Intends Making His Home in New York in the Future.

New York, Dec. 5.—The Tribune says: The statement is made here that James J. Hill will soon retire from the presidency of the Great Northern Railway company, which he has held for many years, and that he will be succeeded in office by his oldest son, J. N. Hill, who a few days ago was selected first vice president of the road. James J. Hill will probably continue to be a director of the Great Northern, it is added, but he desires to be relieved from the detail work necessarily devolving upon the executive head of such a company, especially in view of the fact that he has just taken up the duties of president of the \$400,000,000 Northern Securities company. It is said that Mr. Hill's retirement from the Great Northern presidency will probably be followed by his removal to this city as his home, although it is believed that he will continue to maintain a legal residence in St. Paul.

As president of the Great Northern railway James N. Hill will be the youngest president of a great railway in this country; but his father has great faith in his ability. He will, of course, have his father's advice and the support of capable officers, while the general policy of the company, so far as the Northern Pacific is concerned, will be decided by the Northern Securities company.

### IT WAS GOVERNORS' DAY.

Heads of Four States of the Middle West at the Live Stock Show.

Chicago, Dec. 5.—This was "Governors' day" at the live stock show. Facing a throng that packed the big pavilion the heads of four of the leading live stock and farming states of the Middle West told how the farmer is the "backbone of the nation."

Each speaker sounded especially the glories and resources of the state which claims him as its chief executive.

The four governors whose addresses brought the fifth day of the show to a close were Shaw of Iowa, Van Sant of Minnesota, Bliss of Michigan and Savage of Nebraska.

When Governor Van Sant got the platform the crowd greeted him as the man who had opened the fight on the recent combination of railroad interests.

"Hit 'em hard! Give it to the octopus!" was the cry. But the governor sidestepped any reference to the anti-trust fight and confined himself to reciting the glories of Minnesota.

### HAD A GOOD SEASON.

Business at the Port of Duluth Has Been Very Satisfactory.

Duluth, Dec. 5.—Navigation at the Head of the Lakes for the season of 1901 is practically over, so far as lumber and ore is concerned; but there will be some grain shipped and coal and general merchandise received before the ships tie up for the winter. The harbor is beginning to freeze over enough to hamper the boats a little, but the lake usually remains open until Feb. 1, and until that time some of the smaller boats run to and from north shore points.

According to the records at the customs office up to Dec. 1 the aggregate tonnage carried through the Duluth canal for the season has been 5,414,346 tons, compared with 5,525,346 for the entire season of 1900. When the present season finally closes the business will probably exceed that of last year by several thousand tons. The figures given represent 4,179,755 of shipments and 1,234,591 receipts.

### COMPLIES WITH THE LAW.

Michigan Central Takes Steps to Reorganize Before Dec. 31.

Detroit, Dec. 5.—In accordance with the act passed by the legislature of 1900, revoking the special charter of the Michigan Central railroad and giving that corporation until Dec. 31, 1901, to reorganize under the general railroad law of the state, the stockholders of the road met here and took the necessary steps toward reorganization. Articles of reorganization were drawn up and forwarded to the secretary of state to be filed before Dec. 30. The road will begin to operate under the general railroad law of the state at midnight Dec. 30. This means a rate of fare of 2 cents a mile on the main line of the road, the general law providing that roads of the earning capacity of the Michigan Central cannot charge over 2 cents per mile.

### New American Steamship Line.

Boston, Dec. 5.—The Boston Commercial Bulletin announces a new American steamship line, the United States Steamship company, between Boston, the West Indies, Mexico, Central and South America. The company's fleet will consist of 14 vessels and Boston will be the headquarters of the line.

### Burned in His Residence.

Phillipsburg, Que., Dec. 5.—The summer residence of Major B. I. Pond, son of the Anglican metropolitan of Canada, a prominent insurance man, was burned during the night. The remains of Major Pond were found in the ruins in the morning.

## TO AID IRELAND'S CAUSE.

Auxiliary Branch of the Irish League Formed in New York.

New York, Dec. 5.—About 150 delegates from all over the United States held a meeting at the Hoffman House to form an auxiliary branch of the Irish league, the successor to the Land league of Parnell's time. The branch leagues are to be formed to extend all over the United States.

The meeting was called by John Redmond, M. P., Thomas O'Donnell, M. P., and Patrick McHugh, and was presided over by Michael J. Redding. John Finerty of Chicago was made president, John O'Callaghan of Boston secretary and T. B. Fitzpatrick of Boston treasurer.

After the election the delegates passed resolutions asserting the right of Ireland to self-government and thoroughly approving of the principles that "the Irish people on their own soil are best fitted to fight Ireland's battle for freedom." It was further resolved to request the Irish league of Ireland to send delegates from that organization to the United States to further the Irish cause.

### WERE FRIGHTFULLY BURNED.

Ten Men Injured by an Explosion in an Illinois Coal Mine.

Springfield, Ills., Dec. 5.—Ten men who narrowly escaped instant death in an explosion in a coal mine here were all frightfully burned about the face and hands. The accident occurred at the mine of the Illinois Park Coal Mining company just as the men were leaving the mine. The injured were carried to their homes, where medical aid was in waiting. It is thought all of them will recover. The accident was due to a dust explosion.

### DECLINE IN SILVER.

Believed That Mexico Will Have to Come to a Gold Basis.

Mexico City, Dec. 5.—The rapid rise in exchange, as shown by the gold premium, is the theme of discussion in financial and business circles. Some bankers regard the depression in silver as temporary and hope for a speedy reaction; others, less sanguine, point to the fact that for 18 years there has been, on the whole, a constant downward tendency and express the belief that eventually Mexico will have to come on a gold basis.

### Was Both Tailor and Burglar.

Kansas City, Dec. 5.—F. H. Webber, a burglar who operated extensively in St. Paul, Minneapolis and Kansas City and was arrested in Denver and sent here for trial, has been sentenced to 15 years in the penitentiary. Webber, who is a tailor, 37 years of age, pleaded guilty. He said he began house breaking in Minneapolis 13 years ago and since then has been both tailor and burglar.

### Attacked the German Consulate.

Warsaw, Dec. 5.—A body of students made a hostile demonstration before the German consulate here. They tore down and destroyed the German escutcheon over the door and stoned the windows of the consulate. They dispersed on the arrival of the chief of police. The consulate is now under police protection.

### TELEGRAPHIC BREVITIES.

Negotiations for a Russian loan of £40,000,000 have been resumed at Paris and the issue of this loan is expected shortly.

## IN A BOYISH QUARREL.

An Eleven-Year-Old Kentuckian Kills a Schoolmate Aged Eight.

Newport, Ky., Dec. 5.—Joseph Creelman, a schoolboy, 8 years old, was stabbed to death by a schoolmate aged 11 on the street here at noon. The victim had had a boyish quarrel in the schoolroom with Eddie Armines and when on their way home the quarrel was renewed. A third boy, taking the part of Creelman, threw a piece of brick, which struck Armines on the hand. At that moment Creelman ran up to him and was stabbed. He fell to the sidewalk and in 15 minutes was dead. The Armines boy walked rapidly away, carrying the knife in his hand. He went to the firehouse, where his uncle is captain, and threw the knife in an outhouse, but said nothing about the murder until the news became known of the lad's death. His uncle then promptly surrendered him to the police.

### POWDER HOUSE BLOWS UP.

Two Killed in an Explosion Near Ishpeming, Mich.

Ishpeming, Mich., Dec. 5.—The packing house of the Anthony Powder company's works, midway between Ishpeming and Negaunee, was wrecked by an explosion, killing two of the workmen, John Nelson and Linus Shively. Three other workmen in an adjoining building had a narrow escape, but only one was injured.

The building was completely wrecked and the head of Shively was the only part of either man found. The packing house is where the caps used in setting off giant powder are filled. It is estimated that about one and a half tons of powder were stored in the packing house. Many windows in Ishpeming and Negaunee business houses and dwellings were broken by the fearful concussion.

### Gift From Rockefeller.

Philadelphia, Dec. 5.—Bryn Mawr college, for the higher education of young women, has been offered a gift by John D. Rockefeller, who agrees to contribute \$250,000 for certain specified improvements, provided that on or before commencement day in June next the further sum of \$250,000 shall be raised to complete the projected work.

### Standard Oil Company Wins.

Lincoln, Neb., Dec. 5.—The supreme court has accepted the report of the referees in the suit of the state against the Standard Oil company. The court thereby dismissed the suit, declaring there is insufficient evidence against the company to debar it from the state on the grounds that it is a trust.

### Soldiers Forbidden to Drink "Bino."

Washington, Dec. 5.—Brigadier General Bell has issued an order to the soldiers in Northern Luzon forbidding them under pain of severe punishment by courtmartial to drink the native "bino," spirits which has been found to produce insanity and incite crime.

### The Matabeleland Piano.

The piano in a very primitive form is found in Matabeleland, where, primitive as it is, it is as much appreciated as the finest "grand" in our own country, even though it consist merely of a number of pieces of iron strung on a wooden board. A picture of one of these shows twenty-three pieces of iron of varying lengths and breadths, no two alike, arranged in an ascending scale along the board. Thus a scale of twenty-three notes is produced, quite sufficient for elaborate tunes. To add to its sonority the instrument is usually put inside a hollow gourd, around the opening of which bits of bone are placed, with the same end in view. The performer sits, places the gourd on his knees, the opening toward him, and plays his "piano" with both hands through the opening. The late Mr. Bent, the great South African traveler, describes the sound as "decidedly melodious" and recalling a spinet.—Good Words.

### Eccentric Matches.

A child detests soap. How it would amuse a child to behold a number of matches rushing away from soap! Place some matches in a basin of water in the shape of a star. Take a piece of soap cut into a point, insert it in the water in the middle of the matches, and lo! they will fly from it in every direction as if in horror. If you wish to bring the matches all together again, you will treat them as you would children—with a lump of sugar. Dip the sugar in the water, and little bits of wood will come swimming to it as though they yearned for a sip of its sweetness.—Exchange.

### Fishes Live to a Great Age.

Crows are commonly said to live for a hundred years, and turtles are reported to have even longer life, but if the late Professor Baird be right the greatest amount of longevity is possessed by fishes. Professor Baird once said that as a fish has no maturity there is nothing to prevent it from living indefinitely and growing continually. He cited in proof a pike in Russia whose age is known to date back to the fifteenth century. In the Royal aquarium at St. Petersburg there are hundreds of fish that were put in over 150 years ago.

### South American Horses.

A great many of the horses of the South American pampas are piebald. When caught, at first they always kick freely, and it is often difficult to get saddle and bridle on to them. When properly broken, however, these horses are curiously docile and will allow children to mount them by climbing up their tails. When the gauchos lasso a wild horse on the plains, before the captive is allowed to get on his feet they cut the mane and tail close as a mark that the horse has been mounted; this in case he should get away while being tamed, which, however, is an accident that does not often happen.

PRESIDENT OF GREAT NORTHERN RAILWAY TO SOON STEP DOWN AND OUT.

### SUCCEEDED BY OLDEST SON

Retiring Magnate Will Continue to Be a Director of the System, but Desires to Be Relieved of the Detail Work Now Devolving Upon Him—Intends Making His Home in New York in the Future.

New York, Dec. 5.—The Tribune says: The statement is made here that James J. Hill will soon retire from the presidency of the Great Northern Railway company, which he has held for many years, and that he will be succeeded in office by his oldest son, J. N. Hill, who a few days ago was selected first vice president of the road. James J. Hill will probably continue to be a director of the Great Northern, it is added, but he desires to be relieved from the detail work necessarily devolving upon the executive head of such a company, especially in view of the fact that he has just taken up the duties of president of the \$400,000,000 Northern Securities company. It is said that Mr. Hill's retirement from the Great Northern presidency will probably be followed by his removal to this city as his home, although it is believed that he will continue to maintain a legal residence in St. Paul.

As president of the Great Northern railway James N. Hill will be the youngest president of a great railway in this country; but his father has great faith in his ability. He will, of course, have his father's advice and the support of capable officers, while the general policy of the company, so far as the Northern Pacific is concerned, will be decided by the Northern Securities company.

### IT WAS GOVERNORS' DAY.

Heads of Four States of the Middle West at the Live Stock Show.

Chicago, Dec. 5.—This was "Governors' day" at the live stock show. Facing a throng that packed the big pavilion the heads of four of the leading live stock and farming states of the Middle West told how the farmer is the "backbone of the nation."

Each speaker sounded especially the glories and resources of the state which claims him as its chief executive.

The four governors whose addresses brought the fifth day of the show to a close were Shaw of Iowa, Van Sant of Minnesota, Bliss of Michigan and Savage of Nebraska.

When Governor Van Sant got the platform the crowd greeted him as the man who had opened the fight on the recent combination of railroad interests.

"Hit 'em hard! Give it to the octopus!" was the cry. But the governor sidestepped any reference to the anti-trust fight and confined himself to reciting the glories of Minnesota.

### HAD A GOOD SEASON.

Business at the Port of Duluth Has Been Very Satisfactory.

Duluth, Dec. 5.—Navigation at the Head of the Lakes for the season of 1901 is practically over, so far as lumber and ore is concerned; but there will be some grain shipped and coal and general merchandise received before the ships tie up for the winter. The harbor is beginning to freeze over enough to hamper the boats a little, but the lake usually remains open until Feb. 1, and until that time some of the smaller boats run to and from north shore points.

According to the records at the customs office up to Dec. 1 the aggregate tonnage carried through the Duluth canal for the season has been 5,414,346 tons, compared with 5,525,346 for the entire season of 1900. When the present season finally closes the business will probably exceed that of last year by several thousand tons. The figures given represent 4,179,755 of shipments and 1,234,591 receipts.

### COMPLIES WITH THE LAW.

Michigan Central Takes Steps to Reorganize Before Dec. 31.

Detroit, Dec. 5.—In accordance with the act passed by the legislature of 1900, revoking the special charter of the Michigan Central railroad and giving that corporation until Dec. 31, 1901, to reorganize under the general railroad law of the state, the stockholders of the road met here and took the necessary steps toward reorganization. Articles of reorganization were drawn up and forwarded to the secretary of state to be filed before Dec. 30. The road will begin to operate under the general railroad law of the state at midnight Dec. 30. This means a rate of fare of 2 cents a mile on the main line of the road, the general law providing that roads of the earning capacity of the Michigan Central cannot charge over 2 cents per mile.

### New American Steamship Line.

Boston, Dec. 5.—The Boston Commercial Bulletin announces a new American steamship line, the United States Steamship company, between Boston, the West Indies, Mexico, Central and South America. The company's fleet will consist of 14 vessels and Boston will be the headquarters of the line.

### Burned in His Residence.

Phillipsburg, Que. Dec. 5.—The summer residence of Major B. I. Pond, son of the Anglican metropolitan of Canada, a prominent insurance man, was burned during the night. The remains of Major Pond were found in the ruins in the morning.

## TO AID IRELAND'S CAUSE.

Auxiliary Branch of the Irish League Formed in New York.

New York, Dec. 5.—About 150 delegates from all over the United States held a meeting at the Hoffman House to form an auxiliary branch of the Irish league, the successor to the Land league of Parnell's time. The branch leagues are to be formed to extend all over the United States.

The meeting was called by John Redmond, M. P., Thomas O'Donnell, M. P., and Patrick McHugh, and was presided over by Michael J. Redding. John Finerty of Chicago was made president, John O'Callaghan of Boston secretary and T. B. Fitzpatrick of Boston treasurer.

After the election the delegates passed resolutions asserting the right of Ireland to self-government and thoroughly approving of the principles that "the Irish people on their own soil are best fitted to fight Ireland's battle for freedom." It was further resolved to request the Irish league of Ireland to send delegates from that organization to the United States to further the Irish cause.

### WERE FRIGHTFULLY BURNED.

Ten Men Injured by an Explosion in an Illinois Coal Mine.

Springfield, Ill., Dec. 5.—Ten men who narrowly escaped instant death in an explosion in a coal mine here were all frightfully burned about the face and hands. The accident occurred at the mine of the Illinois Park Coal Mining company just as the men were leaving the mine. The injured were carried to their homes, where medical aid was in waiting. It is thought all of them will recover. The accident was due to a dust explosion.

### DECLINE IN SILVER.

Believed That Mexico Will Have to Come to a Gold Basis.

Mexico City, Dec. 5.—The rapid rise in exchange, as shown by the gold premium, is the theme of discussion in financial and business circles. Some bankers regard the depression in silver as temporary and hope for a speedy reaction; others, less sanguine, point to the fact that for 18 years there has been, on the whole, a constant downward tendency and express the belief that eventually Mexico will have to come on a gold basis.

### Was Both Tailor and Burglar.

Kansas City, Dec. 5.—F. H. Webber, a burglar who operated extensively in St. Paul, Minneapolis and Kansas City and was arrested in Denver and sent here for trial, has been sentenced to 15 years in the penitentiary. Webber, who is a tailor, 37 years of age, pleaded guilty. He said he began house breaking in Minneapolis 13 years ago and since then has been both tailor and burglar.

### Attacked the German Consulate.

Warsaw, Dec. 5.—A body of students made a hostile demonstration before the German consulate here. They tore down and destroyed the German escutcheon over the door and stoned the windows of the consulate. They dispersed on the arrival of the chief of police. The consulate is now under police protection.

### TELEGRAPHIC BREVITIES.

Negotiations for a Russian loan of £40,000,000 have been resumed at Paris and the issue of this loan is expected shortly.

General A. D. Haven, who was third assistant postmaster general under Postmasters General Wanamaker and Bissell, is dead, aged 61 years.

The output of spirits by the Peoria (Ill.) distilleries for the month of November is greater than that of all other distilleries in the United States combined.

Brigadier General Crozier, chief of ordnance, has been detailed as a member of the board of ordnance and fortifications, to succeed General Buffington, retired.

Hon. I. Newton Evans of Hathora, Pa., who was a member of congress for the Forty-fifth, Forty-eighth and Forty-ninth sessions from the Seventh district of Pennsylvania, is dead.

## IN A BOYISH QUARREL.

An Eleven-Year-Old Kentuckian Kills a Schoolmate Aged Eight.

Newport, Ky., Dec. 5.—Joseph Creelman, a schoolboy, 8 years old, was stabbed to death by a schoolmate aged 11 on the street here at noon. The victim had had a boyish quarrel in the schoolroom with Eddie Armines and when on their way home the quarrel was renewed. A third boy, taking the part of Creelman, threw a piece of brick, which struck Armines on the hand. At that moment Creelman ran up to him and was stabbed. He fell to the sidewalk and in 15 minutes was dead. The Armines boy walked rapidly away, carrying the knife in his hand. He went to the firehouse, where his uncle is captain, and threw the knife in an outhouse, but said nothing about the murder until the news became known of the lad's death. His uncle then promptly surrendered him to the police.

### POWDER HOUSE BLOWS UP.

Two Killed in an Explosion Near Ishpeming, Mich.

Ishpeming, Mich., Dec. 5.—The packing house of the Anthony Powder company's works, midway between Ishpeming and Negaunee, was wrecked by an explosion, killing two of the workmen, John Nelson and Linus Shively. Three other workmen in an adjoining building had a narrow escape, but only one was injured.

The building was completely wrecked and the head of Shively was the only part of either man found. The packing house is where the caps used in setting off giant powder are filled. It is estimated that about one and a half tons of powder were stored in the packing house. Many windows in Ishpeming and Negaunee business houses and dwellings were broken by the fearful concussion.

### Gift From Rockefeller.

Philadelphia, Dec. 5.—Bryn Mawr college, for the higher education of young women, has been offered a gift by John D. Rockefeller, who agrees to contribute \$250,000 for certain specified improvements, provided that on or before commencement day in June next the further sum of \$250,000 shall be raised to complete the projected work.

### Standard Oil Company Wins.

Lincoln, Neb., Dec. 5.—The supreme court has accepted the report of the referees in the suit of the state against the Standard Oil company. The court thereby dismissed the suit, declaring there is insufficient evidence against the company to debar it from the state on the grounds that it is a trust.

### Soldiers Forbidden to Drink "Bino."

Washington, Dec. 5.—Brigadier General Bell has issued an order to the soldiers in Northern Luzon forbidding them under pain of severe punishment by court-martial to drink the native "bino," spirits which has been found to produce insanity and incite crime.

### The Matabeleland Piano.

The piano in a very primitive form is found in Matabeleland, where, primitive as it is, it is as much appreciated as the finest "grand" in our own country, even though it consist merely of a number of pieces of iron strung on a wooden board. A picture of one of these shows twenty-three pieces of iron of varying lengths and breadth, no two alike, arranged in an ascending scale along the board. Thus a scale of twenty-three notes is produced, quite sufficient for elaborate tunes. To add to its sonorousness the instrument is usually put inside a hollow gourd, around the opening of which bits of bone are placed, with the same end in view. The performer sits, places the gourd on his knees, the opening toward him, and plays his "piano" with both hands through the opening. The late Mr. Bent, the great South African traveler, describes the sound as "decidedly melodious" and recalling a spinet.—Good Words.

### Eccentric Matches.

A child detests soap. How it would amuse a child to behold a number of matches rushing away from soap! Place some matches in a basin of water in the shape of a star. Take a piece of soap cut into a point. Insert it in the water in the middle of the matches, and let them fly from it in every direction as if in horror. If you wish to bring the matches all together again, you will treat them as you would children—with a lump of sugar. Dip the sugar in the water, and little bits of wood will come swimming to it as though they yearned for a sip of its sweetness.—Exchange.

### Fishes Live to a Great Age.

Crows are commonly said to live for a hundred years, and turtles are reported to have even longer life, but if the late Professor Baird be right the greatest amount of longevity is possessed by fishes. Professor Baird once said that as a fish has no maturity there is nothing to prevent it from living indefinitely and growing continually. He cited in proof a pike in Russia whose age is known to date back to the fifteenth century. In the Royal aquarium at St. Petersburg there are hundreds of fish that were put in over 150 years ago.

### South American Horses.

A great many of the horses of the South American pampas are piebald. When caught, at first they always kick freely, and it is often difficult to get saddle and bridle on to them. When properly broken, however, these horses are curiously docile and will allow children to mount them by climbing up their tails. When the gauchos lasso a wild horse on the plains, before the captive is allowed to get on his feet they cut the mane and tail close as a mark that the horse has been mounted; this to cause he should get away while being tamed, which, however, is an accident that does not often happen.
